FLUFFO

FLUFFO FIRE RESIST
flame retardant, acoustic wall panels

DIRECTIONS FOR USE

The panels should not be exposed to direct, intense sun light. After some time in such conditions colours might fade and discolorations may appear.

Do not apply pressure with your fingers, you might leave permanent dents on the surface of the panel.

The panels are vulnerable to mechanical damage. Be careful not to damage the panels with sharp objects, backrests, edges or corners of furniture. Leaning against the panels is not advisable.

The panels should be mounted away form open flames, sparks and other heat sources such as electric heaters.

Avoid staining the panels.

CLEANING AND CARE INSTRUCIONS

The Fluffo finish covering our panels is antistatic and does not attract dust. However, dust can settle on the panels, just like on any furniture. In order to remove dust, use a soft brush or vacuum with a standard brush for upholstered furniture.

Lightweight stains can be removed with a soft sponge slightly moistened with diluted dishwashing liquid. When cleaning please wipe the whole panel surface, so that you don't leave rubbing traces in one spot. Do not soak the panels it will cause swelling. In extreme cases, when the stain penetrated into the panel and despite the cleaning is still visible, the dirty panel can be easily replaced with a new one.

Be sure not to over rub the panel surface with a wet sponge and avoid strong detergents, such as bleach or washing powder.

The above information is based on our best knowledge, and serves only as a guideline. We are always happy to provide information and technical advice regarding our products. We reserve the right to make changes in our offer at any time. It is up to the customer to make sure that our panels' technical characteristics fit the purpose set by the customer. We will not take responsibility for the consequences resulting from non-compliance with our recommendations.
